

COMBINED BACHELOR'S / MASTER'S PROGRAMS ✚

COMBINED BACHELOR OF ARTS/MASTER OF SCIENCE FOR TEACHERS ADOLESCENCE EDUCATION

The Program

The combined bachelor of arts in selected subject areas and master of science for teachers programs prepare persons for adolescence education teaching grades 7-12. Each program leads to a bachelor's degree, a master's degree, and initial and professional certification in one of the following areas: biology, chemistry, earth science, English, French, mathematics, physics, social studies, or Spanish. In addition to completing general education and undergraduate courses in the subject area, students in these programs take an undergraduate course in education during their sophomore year that introduces them to foundations of education and prepares them for classroom experience. In the eighth semester of full-time study (or equivalent) students can take up to four graduate education courses. With careful planning, each program can be completed in five years and one summer of full-time study.

Students enrolled in a combined program are classified as undergraduates (and are charged undergraduate tuition) until the semester during which they enroll for the 13th credit of graduate courses attempted. (A graduate course in which a student receives any grade, including I, W, or E, is counted as attempted.) Upon verification by the Academic Progress Committee that the student has met all academic progress requirements, and the completion of the B.A./M.S.T. Application for Continuation of Study form, he/she is advanced to graduate status (and graduate tuition applies for that semester and the duration of the program, packaged, if applicable, with graduate forms of financial aid). In these combined programs the bachelor's and master's degrees are conferred simultaneously upon completion of all program requirements. If at any point a student enrolled in a combined program is found to have failed to meet any academic progress requirements, he/she may be counseled to repeat selected coursework or other requirements, or he/she may be transferred into a corresponding subject area bachelor's program.

For the shared vision and guiding principles of the professional education faculty at SUNY Plattsburgh, see Educational Studies Departments in the Academic Departments, Centers, and Major Programs section of this catalog.

Admission Requirements

Applicants for the combined B.A. & M.S.T. Program must meet general college requirements and admission procedures for undergraduate study. (See Admissions

section of the catalog.) Students entering the program as freshmen (with fewer than 28 credits) must have a high school average of at least 85% and combined SAT scores of at least 1575 (1050). Students not meeting these admission requirements may enter the corresponding subject area undergraduate degree programs and apply to transfer into the B.A. & M.S.T. Program upon meeting minimum cumulative GPA requirements (2.75) for at least one semester, or they may apply for admission to the M.S.T. Program after completion of an appropriate undergraduate degree.

Students transferring into the program with 28 or more credits (from another program at SUNY Plattsburgh or from another institution) must have at least a 2.75 cumulative GPA. Failing this, they may transfer into the corresponding subject area major and petition to transfer into the B.A. & M.S.T. Program once they have shown satisfactory progress at SUNY Plattsburgh.

Monitoring of Student Progress

Upon acceptance into a combined degree program, the student is assigned an advisor from the subject area and an advisor from the Department of Adolescence Education and Health Education. Beginning with EDU 280 Introduction to Adolescence Education, normally in the fourth semester, the student will maintain a portfolio, which will be reviewed each semester by the academic advisors and is an important assessment tool in the evaluation of the student's progress. If a student's cumulative GPA falls below 2.75 for undergraduate work or 3.0 for graduate work, or his/her portfolio is deficient, his/her record will be reviewed by the Academic Progress Committee and he/she may be subject to academic remediation or dismissal from the combined B.A. & M.S.T. Program. Dismissed students may petition for readmission to the B.A. & M.S.T. Program.

Students are expected to behave in ways that are consistent with the commitment to professional and ethical behavior, academic excellence and diligence, and dedication to the teaching profession. Advisors and the Academic Progress Committee review any deviations from ethical standards, and, after due process, may recommend action or dismissal from the program. Students who exhibit deficiencies in ethical or professional behavior and/or teaching performance may be subject to dismissal from the program, regardless of their GPA.

Promotion to Graduate Status

When a student registers for his/her first graduate course, his/her academic record and portfolio will be reviewed for promotion to graduate status. A student's promotion to graduate status also depends upon maintaining a cumulative GPA of at least 2.75 in undergraduate courses and 3.0 in graduate courses and the completion of the Application for Continuation of Graduate Study form obtained from the Office of Graduate Advising, Sibley 302A.

Requirements for Student Teaching

Students must apply for student teaching placement in February of the year before the intended student

✚ COMBINED BACHELOR'S / MASTER'S PROGRAMS

teaching semester. Additionally, they must attend one of the mandatory application/orientation meetings, complete an application form, and pay an application fee at the Student Accounts Office.

Prior to student teaching a student must have completed:

1. A minimum of 22 graduate hours with a minimum cumulative (graduate) GPA of 3.0.
2. All required graduate professional education courses through the semester preceding the student teaching experience with no grade below a B.

Capstone Project

Students must successfully complete a portfolio, begun in EDU 280 Introduction to Adolescence Education, taken in the fourth or fifth semester of full-time (or equivalent) course work. Artifacts from the undergraduate content major as well as from graduate education courses that demonstrate a blending of content area and pedagogy will be added to the portfolio throughout the remaining program of study. The portfolio is used by academic advisors from both the content area and the Department of Adolescence Education and Health Education and by the Academic Progress Committee to monitor student progress. (See above.) Certification by the Academic Progress Committee that the portfolio has been satisfactorily completed is required for graduation from the combined B.A. & M.S.T. Programs.
