COVID-19 Cases | Saturday Update

March 6, 2021

Dear Campus Community,

The college recorded five new positive student COVID-19 cases on Saturday. The results include all pool testing from Monday and Tuesday. Some samples from Wednesday are being reflex tested.

Specific pooled test results are reported to students, faculty and staff directly only if they are part of a positive pool. Reflex testing is then used to determine who may actually be positive. Center staff then notifies all contacted individuals of their reflex testing results when received from SUNY Upstate Medical.

Over the past 14 days, 69 total cases have been recorded, with 43 cases remaining active and 26 recovered. Based on public health guidance, 50 students and employees are in quarantine -- 14 on-campus and 36 off-campus.

We respect the privacy of those in isolation and quarantine and will support them. If you are aware, please also respect their privacy.

We encourage you to take steps daily to ensure the safety for you and all around you. Wear a mask, practice social distancing, wash your hands, avoid large social gatherings, and stay home when sick. More information is online at plattsburgh.edu/COVID-19.
