Dear Campus Community,

The college recorded two positive COVID-19 cases on Thursday.

Over the past 14 days, 88 total cases have been recorded, with 43 cases active and 45 recovered. Based on public health guidance, 61 students and employees are in quarantine -- 21 on-campus and 40 off-campus.

We respect the privacy of those in isolation and quarantine and will support them. If you are aware, please also respect their privacy.

Specific results from pooled testing are reported to students, faculty and staff directly only if they are part of a positive pool. Reflex testing is then used to determine who may actually be positive.

Center staff then notifies all contacted individuals of their reflex testing results when received from SUNY Upstate Medical.

All Employees Eligible for Vaccines

All SUNY Plattsburgh employees, including student employees, are eligible to receive a COVID-19 vaccine.

New York has also expanded vaccine access to all people age 50 and older, as well as those in certain health categories. State (https://covid19vaccine.health.ny.gov/) and Clinton County (http://www.clintonhealth.org/covid19vaccine/) web pages provide details on appointments.

We encourage you to take steps daily to ensure the safety for you and all around you. Wear a mask, practice social distancing, wash your hands, avoid large social gatherings, and stay home when sick. More information is online at plattsburgh.edu/COVID-19.

Dr. Alexander Enyedi

President
