Dear Campus Community,

The college recorded 10 positive COVID-19 cases on Sunday. Over the past 14 days, 93 total cases have been recorded, with 46 cases active and 47 recovered. Based on public health guidance, 66 students and employees are in quarantine -- 21 on-campus and 45 off-campus.

We respect the privacy of those in isolation and quarantine and will support them. If you are aware, please also respect their privacy.

Pooled testing resumes tomorrow. Specific results from pooled testing are reported to students, faculty and staff directly only if they are part of a positive pool. Reflex testing is then used to determine who may actually be positive. Center staff then notifies all contacted individuals of their reflex testing results when received from SUNY Upstate Medical.
