Student Vaccine Clinic, Test Results, COVID Update

April 3, 2021

Dear Campus Community,

Some late afternoon appointment times remain for the Tuesday, April 6 student vaccine clinic in Memorial Hall. The clinic will provide the Moderna vaccine, and a second dose will be administered four weeks later on Tuesday, May 4.

Students must commit to receive both doses of Moderna at Memorial Hall. Out of state and international students should use their local Plattsburgh address.

We are also working with SUNY to get additional doses for another dedicated distribution on campus soon. These would likely be one-dose Johnson & Johnson vaccines. We will share more details when they are available.

Ongoing Other Sites
There are other options to get a vaccine:

- Sign up for Clinton County standby now. Students living on campus and elsewhere in Clinton County who are 18 or older can also sign up for the county health department's standby list. The county will use this list when there are extra doses available. You can call 518-565-4848 or email health@clintoncountygov.com with the following information: Subject line: COVID vaccination standby list; Name; Phone number; Email address; City, town or village of residence. Indicate your Clinton County address or residence hall address.

- Book an appointment at the state or county site beginning Tuesday, April 6. All those 16 and over can then begin scheduling appointments to receive one of three FDA-approved COVID-19 vaccines. All SUNY Plattsburgh employees, including student employees, are already eligible to receive a vaccine. New York also provides access to all people age 30 and older, as well as those in certain health categories. State (https://covid19vaccine.health.ny.gov/) and Clinton County (http://www.clintonhealth.org/covid19vaccine/) web pages provide details.

If appointments are full at these sites, continue to check back as these are refreshed and new times open due to changes and cancellations.

Pooled Test Results

Reminder: SUNY Upstate Medical University is now reporting pooled test results directly to students, faculty and staff via email when they are completed. These will come to your registered email address. You will be given a link to follow, log in, and see your result. It will be either presumed negative or positive.

If your result is presumed negative, you need take no further action. If your result is positive, you will be contacted by the Student Health and Counseling Center or the Clinton County Health Department with further details. If you get the notification email before being contacted, we ask you to self-isolate and
contact your health care professional or the health center at 518-564-2187 or healthcenter@plattsburgh.edu.

**COVID Cases**
The college recorded four positive COVID-19 cases on Saturday. Over the past 14 days, 112 total cases have been recorded, with 44 cases active and 68 recovered.

Based on public health guidance, 53 students and employees are in quarantine -- 22 on-campus and 31 off-campus. We respect the privacy of those in isolation and quarantine and will support them. If you are aware, please also respect their privacy.

Our caseload remains below the state threshold that would prompt a pause in on-campus classes and operations. This spring semester, the guidance from the state is to pause when a campus' testing positivity rate is at 5 percent over a rolling 14-day period. Our current rate is 1.36 percent.

We encourage you to take steps daily to ensure the safety for you and all around you. Wear a mask, practice social distancing, wash your hands, avoid large social gatherings, and stay home when sick. More information is online at plattsburgh.edu/COVID-19.
