COVID Cases | Wednesday Update

April 14, 2021

Dear Campus Community,

The college recorded one positive COVID-19 case on Wednesday. Over the past 14 days, 50 total cases have been recorded, with eight cases active and 42 recovered.

Based on public health guidance, eight students are in quarantine -- one on-campus and seven off-campus. We respect the privacy of those in isolation and quarantine and will support them. If you are aware, please also respect their privacy.

Regular pooled surveillance testing for this week concluded today. SUNY Upstate Medical University reports pooled test results directly to students, faculty and staff via email when they are completed. These come to your registered email address. You will be given a link to follow, log in, and see your result. It will be either presumed negative or positive.

If your result is presumed negative, you need take no further action. If your result is positive, you will be contacted by the Student Health and Counseling Center or the Clinton County Health Department with further details. If you get the notification email before being contacted, we ask you to self-isolate and contact your health care professional or the health center at 518-564-2187 or healthcenter@plattsburgh.edu.

State (https://covid19vaccine.health.ny.gov/) and Clinton County (http://www.clintonhealth.org/covid19vaccine/) web pages provide details of local vaccine appointments.

We encourage you to take steps daily to ensure the safety for you and all around you. Wear a mask, practice social distancing, wash your hands, avoid large social gatherings, and stay home when sick. More information is online at plattsburgh.edu/COVID-19.
