COVID-19 Cases | Saturday Update

Nov. 14, 2020

Dear Campus Community,

The college recorded 15 new COVID-19 cases on Saturday. Over the past 14 days, 69 total cases have been recorded.

Of the new cases, 14 were identified through Wednesday's pooled surveillance testing of 1,348 students. The balance of those tests were negative. Students testing negative have been notified and encouraged to return home if able.

Results from Thursday and Friday pools will be shared both directly to tested students and to campus when available.

By direction of the county health department, 127 students (54 on-campus and 73 off-campus) and one employee are in mandatory or precautionary quarantine. Additionally, four students are in precautionary isolation having tested negative with rapid tests but awaiting back-up PCR test results.

Decisions by the health department for quarantine are based on an assessment of potential exposure to help prevent possible viral spread. Those in isolation and quarantine are being released as they recover and risk times expire. We respect the privacy of those in isolation and quarantine and will support them. If you are aware, please also respect their privacy.

As students prepare to go home or are already away from campus, please continue to focus on prevention, health and safety to benefit yourselves, your friends and your families. You can make a difference.

Dr. Alexander Enyedi
President
