Dear Campus Community,

The college recorded two new COVID-19 cases today from among the 523 pooled surveillance samples taken Tuesday, Dec. 15. Both are employees.

Over the past 14 days, the college has recorded four total cases.

Results of pooled surveillance testing will be shared as they are reported back to campus from Upstate Medical. In addition, any positive cases among the small number of remaining on-campus students will be shared with you. The next pooled testing is scheduled for Tuesday, Jan. 5.

We will resume regular reporting and COVID-19 updates when the build-up to the spring 2021 semester begins in mid-January. We respect the privacy of those in isolation and quarantine and will support them. If you are aware, please also respect their privacy.

We encourage you to take steps daily to ensure the safety for you and all around you. Wear a mask, practice social distancing, wash your hands, avoid large social gatherings, and stay home when sick.

Dr. Alexander Enyedi
President
